The Islamic date begins at the sunset on the previous Gregorian day & date shown. The Islamic (Lunar) month's cycle begins with new moon's (expected) first visibility of the crescent and is based on the timings of the sunset & moonset in Hong Kong, according to details obtained from the observatory, Hong Kong.

The Islamic date begins at the sunset on the previous Gregorian day & date shown. The Islamic (Lunar) month's cycle begins with new moon's (expected) first visibility of the crescent and is based on the timings of the sunset & moonset in Hong Kong, according to details obtained from the observatory, Hong Kong.
